### "Who's Ready to Go Shopping?"

I always enjoy a trip to a nursery; spring, summer, fall or winter. Especially on a cold and/or damp day when there are few shoppers and the greenhouse is warm. Let's take a trip to some of Carol McCutcheon's and my favorites. I have comprised a list, with Carol's help, of mostly local nurseries. So set back and enjoy the ride as we visit a few of our favorites. They are in no certain order. And if you have a favorite that's not on the list, let me know. I wouldn't want to miss one! Remember, your fellow garden club members and gardener friends are also great resources to ask for their favorite nurseries. Word of mouth is always great advertisement, Please check to see what the hours of operation are for the nurseries before you go. Some of these are small nurseries and they have limited hours and even limited days they are open. Nurseries with a \* offer a discount, but you'll have to ask for it.

### **Hilltop Farms**

3307 N State Highway F, Ash Grove, MO

417-672-2259 [Hill-topgardens.com](http://Hill-topgardens.com)

This is well worth the drive! About 2 hrs. from Rogers. Make a day of it and visit some of the Springfield nurseries. Great people, Great plants, great value. Perennials, annuals, tropical, veggies, herbs, etc. They "retired" at the end of June last year, now they're coming out of retirement and downsizing what they carry and their operating hours.

### **Pine Ridge Farms**

832 Sycamore Rd, London, AR

479-293-4359 [pineridgegardens.com](http://pineridgegardens.com)

Another one that is a drive (1 ½-2hrs) but if you're looking for native plants, it is a must. Native plants, shrubs and trees. Check on her hours before you go. Great native plants

### **Nana's Iris Gardens**

Keith Rd, Charleston, AR

479-965-7741 (2 hour drive)

Looking for Iris? This is the one for you. Nana (Diane Jones) has fields of iris. Some she, her mother and her father have hybridized. She is a wealth of information. She only sells her iris in containers now and for \$5. She has hundreds of varieties. Quite a bargain, many containers have multiple fans. She no longer does tours.

### **Fayetteville Farmers Market**

Fayetteville Square, AR

Not technically a nursery but there are usually several vendors selling plants at the market. A couple are native plant vendors.

### **Carson Nursery**

6607 s Campbell Ave, 417-882-5200

We stopped in last year and they had a great variety of perennials, trees, and shrubs. Helpful staff.
